Select the elements you want to convert into styles

The image shows a design tool interface with a typography style library. The library is organized into two sections: 'Regular' and 'Bold/Semi-Bold'. Each section contains a list of text styles with columns for 'TYPESTYLE', 'TYPEFACE', 'WEIGHT', 'SIZE', and 'LINE'. A blue selection box highlights a vertical column of text elements on the left side of the library, spanning from the top of the 'Regular' section to the bottom of the 'Bold/Semi-Bold' section. A mouse cursor is pointing at the bottom of this selection box, with a dimension label '393 x 1766' appearing below it.

TYPESTYLE	TYPEFACE	WEIGHT	SIZE	LINE
DisplayXLarge	Archivo	Regular	56px	120%
DisplayLarge	Archivo	Regular	48px	120%
DisplayMedium	Archivo	Regular	32px	120%

Run the Styler plug-in, and click 'Generate Styles'

The image shows a design tool interface with a top toolbar, a left sidebar, and a main workspace. The left sidebar contains a 'Layers' panel with a search icon and 'Page 1' dropdown. It lists several layers: 'Typography/DisplayX...', 'divider', 'Group 2', '120%', '48px', 'Regular', 'Archivo', 'Typography/DisplayLa...', 'divider', 'Group 3', '120%', '32px', 'Regular', 'Archivo', 'Typography/DisplayM...', 'divider', 'Group 4', '120%', '24px', 'Regular', 'Archivo', and 'Typography/DisplayS...'. The main workspace is divided into three sections: a 'Plugin' section at the top showing a preview of the 'Styler' plugin, a central 'Styler' section by 'Andrei Iancu' with a 'Run' button and a dropdown menu, and a 'You can support by' section at the bottom. The dropdown menu is open, showing options: 'Extract Styles', 'Generate Styles' (highlighted with a mouse cursor), 'Apply Styles', 'Detach Styles', 'Remove Styles', and 'Customize plugin'. The right side of the workspace shows a table of generated styles.

Inter	Semi-Bold	14px	15

All typestyles have been added to my local styles

The image shows a design tool interface with a list of typestyles on the left and a local styles panel on the right. The top bar includes a user profile icon, the text "Drafts / Untitled", a "Share" button, a play icon, and a "38%" zoom level. The main area is divided into two sections: "Design" and "Prototype". The "Design" section shows a list of typestyles with columns for TYPEFACE, WEIGHT, SIZE, and LINE. The "Local styles" section shows a list of text styles under the "Typography" category, including Caption, Subheading, BodySmall, BodyMedium, BodyLarge, DisplayXSmall, DisplaySmall, DisplayMedium, DisplayLarge, and DisplayXLarge. A red box highlights the "Local styles" panel.

Each font has a bold and regular font weight

The image shows a design tool interface with a font list on the left and a style panel on the right. The font list is organized into two sections: 'Regular' and 'Bold'. Each section has a table with columns for 'TYPEFACE', 'WEIGHT', 'SIZE', and 'LINE'. The 'Regular' section lists fonts like Archivo and Inter in various sizes (56px to 12px) and line heights (120% to 150%). The 'Bold' section lists fonts like Archivo and Inter in various sizes (56px to 12px) and line heights (120% to 150%). The style panel on the right shows 'Design', 'Prototype', and 'Inspect' tabs. Under 'Design', there are 'Page' and 'Local styles' sections. The 'Page' section shows a color swatch 'F5F5F5' at 100%. The 'Local styles' section has a '+' icon. Under 'Text styles', there is a 'Typography' section with a dropdown arrow. It lists 'Caption', 'Subheading', and 'BodySmall'. The 'BodySmall' section is expanded, showing 'Ag Bold · 14/150' and 'Ag Regular · 14/150' highlighted with a red box. Below this are 'BodyMedium', 'BodyLarge', 'DisplayXSmall', 'DisplaySmall', 'DisplayMedium', 'DisplayLarge', and 'DisplayXLarge'. At the bottom, there is an 'Export' section with a '+' icon.

I use this plug-in to set up my typography, color, effects, and grid styles

The screenshot shows a design tool interface with a dark theme. At the top, there's a navigation bar with a profile icon, the text "Design Systems / Seventy8 (duplicate)", a "Share" button, and a "50%" zoom level. Below this, the main workspace is titled "Foundations → Typography". A table lists various text styles with columns for "TYPEFACE", "WEIGHT", "SIZE", and "LINE". A modal menu is open over the table, listing "Effect styles" (x-small, small, medium, large, x-large, xx-large) and "Grid styles" (Wide, Slim, Fluid, Dashboard Slim, Dashboard Wide, iPad Pro 11", iPad Pro 12.9", iPhone Small). On the right, a sidebar shows "Local styles" with a "+" icon, "Text styles" (including a "Typography" folder with sub-items like DisplayXLarge, DisplayLarge, DisplayMedium, DisplaySmall, DisplayXSmall, BodyLarge, BodyMedium, BodySmall, Subheading, Caption), and "Color styles" (Black, White, Grey, Watermelon, Red, Fuchsia, Purple, Blue, Sky).
